6.2 Public Welfare and Donation

• Charity Donation

Microbio abides the mission of “developing new drugs and caring for life” and provide long-term sponsorship of the "Taiwan Cancer Nutrition and Immunity Association" activities to promote cancer health education knowledge and help the public establish a correct diet and nutrition concept. In 2024, a total of NT\$140,800 were donated to the children's cancer charity project.

We have also been working with the BOYO Social Welfare Foundation for many years and support the Foundation to train local community teachers by monthly donations. Through the Foundation, to provide children in rural areas with abundant learning resources and opportunities. In 2024, a total of 600,000 dollars was donated.

Since 2018, Cotton Field Organic has collaborated with Taishin International Bank and launched a Taishin Cotton Field co-branded card. 0.6% of the money spent at Cotton Field Organic stores is allocated and donated to promote organic agriculture, organic product verification, and other educational and charitable activities. This helps more farmers to invest in organic farming, further purifying and revitalizing our land and letting consumers have more choices of organic agricultural products.

At the same time, Cotton Field Organic also worked with the Chinese Children's Home & Shelter Association (CCSA) and donated healthy Chinese New Year dishes, accumulated to nearly 1,000 dishes by 2024. By sharing these Chinese New Year dishes with children in the organization, not only to show our care for these children, but also hope those children from disadvantaged families feel warmth and would positively face their future. We believe that with continuous sharing, the seeds of love will keep growing.

Cotton Field Organic 2024 Chinese New Year Dishes Sharing Event
Employees worked together to prepare charitable meals for Chinese New Year dinner and to convey the Company's warmth and care.

Delivery of Chinese New Year Dishes to Orphanages
Healthy Chinese New Year dishes were delivered to orphanage to accompany children in having a warm Chinese New Year.

Appendix

• Light Up the Dual-Color Pink Ribbon and volunteer to participate in the activity

Microbio's operational offices and laboratories along with its subsidiary Cotton Field Organic's headquarters and most of its retail stores are located in Taipei City and New Taipei City. As a member of the Taipei and New Taipei areas, we uphold the principle of "Healthy Living, Sustainable Prosperity" and actively participate in local public welfare activities, to face health and environmental issues with the community jointly.

According to the statistics of the National Health Administration of the Ministry of Health and Welfare, in 2021, the incidence of breast cancer was the first in women and the 33rd in men; the mortality rate was the second in women and the 34th in men. With more than 15,000 new cases each year, an average of one breast cancer case occurs every 35 minutes. It is a health issue that citizens cannot afford to ignore, and it is a topic that both men and women should pay attention to. Overseas research data shows that diet, exercise, and lifestyle habits can reduce the risk of breast cancer by one third. It is also important to pay attention to breast health and regular screening.

On October 20, 2024, the Company participated in the "Light Up the Dual-Color Pink Ribbon" event organized by the Taiwan Breast Cancer Alliance at the Taipei Sun Yat-sen Memorial Hall. In addition to promoting international "World Breast Cancer Care Month", we also encourage the public to pay attention to their health and go for regular breast cancer screenings. Our volunteers also set up a charity booth to share education on gut health and cancer prevention with guests through interactive activities like fun quizzes and lucky draws. In the process, we felt the patients' optimism and proactive spirit in the face of cancer. A total of NT\$150,000 and 16 people were invested in the activity to interact with more than 500 breast cancer patients and their families.

Volunteer service stalls at the Pink Ribbon Carnival
The volunteers from Microbio and Cotton Field Organic set up a charity booth to promote intestinal health and convey health-related knowledge.

Group photo for Light Up the Dual-Color Pink Ribbon event
In response to the Breast Cancer Awareness Month, volunteers and patients together supported breast cancer awareness and prevention.
